

As the nominee for the Director of Membership, some of the goals I have in mind is to make sure that the people present to the meetings are accounted for. As a member of SHPE, I have noticed that the attendance routine is not efficient I'd like it to be. Often times it takes too long to get checked in because of the lack of devices. One idea I have to make things run efficiently is to create a QR code that leads directly to the attendance sheet. By doing so I believe that taking attendance will go faster because people always carry around a mobile device. I want to run for this position because I believe it is the role for me. I am well organized and I have had experience mitigating attendance.
