### Plan of Action for SHPE Treasurer 2020-2021

I've been part of SHPE for several years, from high school, to community college, to here in Sacramento State. I have worked as Treasurer for SHPE of Napa Valley Community College (2017-2018) and I plan to be CSUS SHPE's Treasurer so I can continue to spread SHPE's message. I want to become Treasurer because I believe I'm the most qualified and most dedicated to managing the club's finances. As a dedicated financial officer, I have skills in Excel and I will work to maximize club benefits such as quality of events/advertisement while minimizing excess/unnecessary spending to maintain our funds high. I will work closely with the fundraiser coordinator to ensure that we have fun and profitable fundraisers, with a focus on fundraising traditional holiday celebrations such as Dia de los Muertos to sell traditional Mexican bread donated/bought from a local bakery with chocolate abuelita. Through volunteering, we can grow the club's memberships/engagement so I will work to get members involved with club activities. Alongside the other officers, I will also ensure clear communication amongst members and non-members. This includes communications via posters, emails, discord, and through general meetings on full-details of events/fundraisers, and other useful information that will offer members opportunities to grow in their academic and professional careers. I will work to make SHPE commonly known for creating relationships and extending students' professional networks by working with the San Francisco professional chapter and other nearby college SHPE chapters. Students may connect with professionals and students from Sacramento or other cities that can potentially benefit them in the future. Following my time as Treasurer, I hope to go further and become the President or VP of CSUS SHPE chapter.
